KIOXIA's next-gen EDSFF E1.S SSDs for hyperscale data centers released

KIOXIA announces its new XD7P series SSDs based on the next-gen EDSFF E1.S standard, ready for super-speeding hyperscale data centers, and more.

We know our clients' audiences – and our pitches land in the hands of those who speak to them. Here, KIOXIA's launch of an exciting new drive set to bring thermal and performance benefits to enterprise infrastructures was thoroughly dissected by TweakTown – to more than 1M unique viewers.

KIOXIA

KIOXIA is a leading worldwide supplier of flash memory and solid-state drives (SSDs). From the invention of flash memory to today's breakthrough BiCS FLASH™ 3D technology, KIOXIA continues to pioneer innovative memory, SSD and software solutions that enrich people's lives and expand society's horizons. The company's innovative 3D flash memory technology, BiCS FLASH, is shaping the future of storage in high-density applications, including advanced smartphones, PCs, SSDs, automotive, and data centers.
